Sustainable Development Unit Case Study Template

SDU Contact	Please return this document to: Charles Kitchin Communications and Engagement Manager england.sdu@nhs.net 01223 597614 Case studies should be succinct and avoid jargon. A website PDF will be created using this template shown at the end of this document. Examples of other case studies can be found on our website: www.sdu.nhs.uk
Case study title	
Case study theme	E.g. food waste, energy, travel, procurement, buildings, technology, culture change, leadership, planning, Good Corporate Citizenship
Name of organisation	
Contact details of the author of this case study	Name Tel E-mail
Background	
What was the issue / problem being addressed?	
What action did you take to overcome the issue	

★ Unique Games
At 777Coin, we're always coming up with new ideas for our games. We pride ourselves on having the most unique and entertaining games of all the Bitcoin casinos! We also regularly release new games, so check back often, you may just find something you really like!

✔ Provably Fair
Our games are more than just fair, they're provably fair! We use cryptography to mathematically prove each and every game's result was fair and even let you "Roll the dice" with us. Don't trust us, trust mathematics!

☁ No Downloads
If you have a modern web browser and some Bitcoins, you already have everything you need to play our exciting games! No Flash, No Java, No Plugins. Everything is built with HTML, CSS, and JavaScript so you never have to download special to play at 777Coin.

Use of one or more of these services does not guarantee selection for peer review, manuscript acceptance, or preference for publication in any APA journal. (2016). Please see Supplementing Your Article With Online Material for more details. Your equation has now been inserted into your Word file as a MathType Equation. For authors who prefer their figures to be published in color both in print and online, original color figures can be printed in color at the editor's and publisher's discretion provided the author agrees to pay: \$900 for one figure an additional \$600 for the second figure an additional \$450 for each subsequent figure Journal Article Reporting Standards Authors must adhere to the APA Style Journal Article Reporting Standards (JARS) for quantitative, qualitative, and mixed methods. Supervision: Oversight and leadership responsibility for the research activity planning and execution, including mentorship external to the core team. The Journal of Psychopathology and Clinical Science is now using a software system to screen submitted content for similarity with other published content. H. Starr, PhD University of Rochester, United States Gregory Strauss, PhD University of Georgia, United States Michael Treadway, PhD Emory University, United States Suzanne Vrshek-Schallhorn, PhD The University of North Carolina, Greensboro, United States David Watson, PhD University of Notre Dame, United States Ashley L. Authors should include a subsection in the method section titled "Transparency and openness." This subsection should detail the efforts the authors have made to comply with the TOP guidelines. Ethical Principles It is a violation of APA Ethical Principles to publish "as original data, data that have been previously published" (Standard 8.13). Other submissions that exceed 9,000 words will be returned for shortening. The same caption will appear on both the online (color) and print (black and white) versions. Authors are required to state in writing that they have complied with APA ethical standards in the treatment of their sample, human or animal, or to describe the details of treatment. Each article should represent a significant addition to knowledge and understanding of psychopathology and clinical science in terms of etiology, description, mechanisms, or development. Equations composed with the built-in Word 2007/Word 2010 equation support are converted to low-resolution graphics when they enter the production process and must be rekeyed by the typesetter, which may introduce errors. Below are additional instructions regarding the preparation of display equations, computer code, and tables. There are many available preregistration forms (e.g., the APA Preregistration for Quantitative Research in Psychology template, ClinicalTrials.gov, or other preregistration templates available via OSF); completed preregistration forms should be posted on a publicly accessible registry system (e.g., OSF, ClinicalTrials.gov, or other trial registries in the WHO Registry Network). Analysis Plan Preregistration: Level 2, Requirement—Article states whether any of the work reported preregistered an analysis plan and, if so, where to access it. Authors must submit a masked copy via stable link or supplemental material. Study Preregistration: Level 2, Requirement—Article states whether the study design and (if applicable) hypotheses of any of the work reported was preregistered and, if so, where to access it. Disclaimer: Ethical Principles of Psychologists and Code of Conduct electronically on its website in HTML, PDF, and Word format. Smith Miami University, United States Kathryn Smith, PhD Sanford Research & University of North Dakota, United States Kasey Stanton, PhD University of Wyoming, United States Lisa R. Results must be fully disclosed. Additional guidance on APA Style is available on the APA Style website. We encourage investigators to preregister their studies and analysis plans prior to conducting the research (e.g., ClinicalTrials.gov or the Preregistration for Quantitative Research in Psychology template) via a publicly accessible registry system (e.g., OSF, ClinicalTrials.gov, or other trial registries in the WHO Registry Network). (2019). The journal is also adhering to Level 3 ("verification") for replication. Registered reports require a two-step review process. Minor, PhD Indiana University—Purdue University Indianapolis, United States Regina Miranda, PhD Hunter College, City University of New York, United States Nicholas Moberly, PhD University of Exeter, United Kingdom Aprajita Mohanty, PhD State University of New York, Stony Brook, United States Brooke Molina, PhD State University of New York, Stony Brook, United States Scott Monroe, PhD University of Notre Dame, United States Judith K. To be eligible for an open data badge with such a notation, the repository must publicly describe the steps necessary to obtain the data and detailed data documentation (e.g. variable names and allowed values) must be made available publicly. Are there published or submitted papers from this data set that address related questions? Chapter in an edited book Balsam, K. At a minimum, empirical research, including meta-analyses, submitted to the Journal of Psychopathology and Clinical Science must meet Level 2 ("requirement") for all eight aspects of research planning and reporting. If all criteria are met as confirmed by the editor, the form will then be published with the article as supplemental material. All authors should have reviewed and agreed to their individual contribution(s) before submission. Examples of basic reference formats: Journal article McCauley, S. Tables Use Word's insert table function when you create tables. Hays (Eds.), Culturally responsive cognitive behavior therapy: Practice and supervision (2nd ed., pp. Miller, PhD University of California, Los Angeles, United States Joshua D. To that end, we request separate files for computer code. Data, materials and code Authors must state whether data and study materials are available and where to access them. In the text of the article If you would like to include code in the text of your published manuscript, please submit a separate file with your code exactly as you want it to appear, using Courier New font with a type size of 8 points. Software/Code citation Viechtbauer, W. This information (2–4 sentences) must be provided as part of the Author Note. This study's design and hypotheses were preregistered; see [STABLE LINK OR DOI]. Open science badges Articles are eligible for open science badges recognizing publicly available data, materials, and/or preregistration plans and analyses. APA Style and Grammar Guidelines for the 7th edition are available. The TOP Guidelines cover eight fundamental aspects of research planning and reporting that can be followed by journals and authors at three levels of compliance. Verify that your equation is correct, click File, and then click Update. Recommended repositories include APA's repository on the Open Science Framework (OSF). S. Design and Analysis Transparency (Reporting Standards) : Level 2, Requirement—Article must comply with APA Style Journal Article Reporting Standards (JARS). See also APA Journals® Internet Posting Guidelines. The following topics fall within the journal's major areas of focus: psychopathology—its etiology, development, symptomatology, and course normal processes in individuals with mental illness experimental studies, with human or animal subjects, relating to disordered emotional behavior or pathology sociocultural effects on pathological processes, including the influence of gender and ethnicity novel methods developed to measure psychopathological mechanisms Empirical papers with a strong theoretical framework and/or models of computational parameters are particularly encouraged. Abstract and keywords All manuscripts must include an abstract containing a maximum of 250 words typed on a separate page. In addition, APA Ethical Principles specify that "after research results are published, psychologists do not withhold the data on which their conclusions are based from other competent professionals who seek to verify the substantive claims through reanalysis and who intend to use such data only for that purpose, provided
